Cheers and welcome to **Pints Pub** a traditional brew pub that aspires to be your local regardless of your locale.

Here at **Pints**, you'll find the charm and personality of the "local", the third place, neither home nor work. A place that serves as a crossroads for society, where **artisan brewed beer**, freshly prepared **honest food**, and, as importantly, **good conversation** are on the bill of fare.

Please be aware that despite our corner pub ambiance, Pints is nationally famed for two world class features. We are brewers of authentic traditional British **cask conditioned** or "live" ales. These hand crafted, deep and complex ales are served from the hand pumps and rarely found in the U.S. Additionally exceptional, in fact unique, is our offering of **Single Malt Whisky**. We are proud to be the purveyor of the broadest selection of single malt whisky this side of Britain.

So settle in with a pint, a wee dram or some pub grub, read the London Times (you'll find it by the front door), or chat with a neighbor. You're among friends.

Cheers

A good local pub has much in common with a church, except that a pub is warmer, and there's more conversation.
